Noida, India · +91 83688 00840 · kavyanshsrivastav@gmail.com · barnode.github.io/portfolio · linkedin.com/in/kavyanssh-srivastav

Final-year Animation & Multimedia student designing real-time environments in Unreal Engine. Published a psychological horror game built on lighting and level design; degree research on virtual production graded A. Seeking a master's in game design or immersive media.

EDUCATION

B.Sc. (Hons.) Animation & Multimedia · Birla Institute of Technology, Mesra — Noida 2023 – 2027

CGPA 8.27 / 10 · final-year average 9.00

Game Design (A+) · Game Engine (A+) · 3D Compositing for Camera (A+) · UI/UX (A+) · Production Design Workshop (A+)

Sapphire International School, Noida — Class XII, CBSE 86% (2022–23) · The Sports School, Bangalore — Class XI (2021–22) · Seth Anandram Jaipuria School — Class X, CBSE 80% (2009–2021)

DEGREE PROJECTS

Project Vesper — Souls-like Action Game 2026 – present

Unreal Engine 5 · Solo · Final Year Degree Project, in progress · in-development screenshots on portfolio

- Designing the critical path through a gothic cathedral complex, with optional content branching off the main route.
- Writing narrative and environmental storytelling; restaged the central battle as a one-sided ambush to align level with story.
- Building the cutscenes as an AI-generated pipeline, scoping one project across two module briefs.

Virtual Production Pipeline for Budget Productions 2026

Degree Showcase Project I · Grade A · 7 credits · externally examined · full handbook on portfolio

- Built and evaluated a five-stage pipeline replacing LED volumes and tracking rigs with an iPhone, for filmmakers without studio access.
- Integrated ARKit camera tracking and COLMAP solving with a custom UE5 Composure network that relights live footage using AI-extracted PBR passes.
- Documented three engine-level trade-offs, including the conflict between Lumen's temporal accumulation and frame-accurate plate synchronisation.

PROJECTS

False Memory — First-Person Psychological Horror

Unreal Engine 5, Maya · Full case study and playable build on portfolio

- Designed level and lighting for a narrative horror game using atmosphere rather than threat as the primary tool.
- Wrote a short-form story resolving in one sitting; scoped around third-party systems to keep design effort on environment and narrative.
- Sole developer; playtested externally and iterated on the results.

ProjectArch — Real-Time Architectural Visualisation

Unreal Engine 5 · Walkthrough video on portfolio · client engagement · complete, awaiting deployment

- Directed level design, interface, motion and colour for a product that began as personal work and was subsequently commissioned.
- Diagnosed a first-launch stutter caused by driver shader compilation and specified a shader preparation stage to resolve it.

DESIGN &
CLIENT WORK

Shayaan Sports Academy, Noida — Design & Media

2022 – present

- Designed the academy logo and identity system, applied across posters, forms and official documentation.
- Produced coach verification and registered-player records submitted to the All India Tennis Association.

LEADERSHIP

eSports Championship, BIT Noida Sports Club — Co-Organiser

2025, 2026

- Co-ran two editions across Counter-Strike, Mortal Kombat and Tekken 7, with 25–28 competitors per bracket.
- Designed a Round-of-32 knockout to fit a one-hour window, trading entrant numbers for schedule.
- Recruited and directed the photography and graphic design crew.

SKILLS

Real-time & virtual production	Unreal Engine 5 · Composure · Lightcraft Jetset · Autoshot · Beeble AI · USD/USDZ · PBR workflows · camera tracking
Design	Level design · environment composition · UI · narrative · art direction · brand identity
3D & Technical art	Maya: rigging, skinning, model repair, keyframe animation
Software	DaVinci Resolve · Photoshop · Illustrator · Animate · drone videography
Languages	English, Hindi

ACHIEVEMENTS

- Tennis — AITA national rank 121, Boys' U-16 (2021); represented Uttar Pradesh at the National School Games (2018, 2019); runner-up, Prakrida 2024.
- CII AVGC & Immersive Media Summit — 2023, 2024.
